NOTICE OF PRICE INCREASE

March 15, 2021

To Our Valued Patrons

After much consideration and circumstances beyond our control, mainly due to the increase of metals, we regrettably must have a price increase. This is our first in five (5) years.

This increase will assure to maintain the Quality Standards that Thaler Metal prides itself & is known for.

We made sure to keep this increase at a possible minimum and the increase varies based on the products composition.

The new Price List takes effect May 1st. & it will be available electronically, we will also provide a Hard Copy when needed.

It is always important to call and confirm prices.

Thank you for your much valued patronage.

Best Regards,

THALER METAL INDUSTRIES LTD.
